Часть 2

The first screenshot shows a Charles Proxy session with a list of requests on the left. The selected request is a GET request to `https://9a5b909f-12b5-4c02-8bc7-19fed2775134.serverhub.praktikum-services.ru/api/v1/estimate?byAuto=2.7&byLegs=3&time=16538506869`. The response is a JSON object containing pricing information for different transport modes.

```

The second screenshot shows the same Charles Proxy session with the 'Breakpoints' tab selected. The selected breakpoint is for the same URL as the first screenshot. The response is the same JSON object as in the first screenshot.
